RiverWalk Geo-Tour

Geocaching is an outdoor adventure game similar to a treasure hunt played with a GPS device. The basic idea is to locate hidden containers, called geocaches, then share your experiences online. There are over a million active geocaches around the world and now with the RiverWalk Geo-Tour there's even more reasons to bring the family and hike along the Chattahoochee RiverWalk; check out the longest urban whitewater course as well. Hiking, biking, and now rafting!

Family fun for everyone.

Steps to the RiverWalk Geo-Tour

1. Obtain a RiverWalk Geo-Tour Grid Sheet from the Columbus, GA Convention & Visitors Bureau (900 Front Avenue 31901) or download it online at http://visitcolumbusga.com/visitors/riverwalk_geotour.
2. If you're not already registered to geocache, go to www.Geocaching.com, create a log-in and find the GPS coordinates and more information for the RiverWalk Geo-Tour locations.
3. Start your search and locate one or all caches using a hand-held GPS unit. The cache containers are sealed cases labeled as a RiverWalk Geo-Tour geocache. Caches are located in 31 points along the 15-mile Chattahoochee RiverWalk in Columbus, GA.
4. When you find a RiverWalk Geo-Tour cache, log your name and any comments on the logbook inside the cache and find the letter adhered to the inside of the cache container; write it on the corresponding space of your RiverWalk Geo-Tour Grid Sheet. Each cache container has a letter.
