

GEORGIA WINTER INSTITUTE

...where person-centered planning meets community building

January 24-27, 2016

Columbus Convention & Trade Center Columbus Marriott Columbus, GA

This amazing event will bring people together from Georgia and beyond to discover how to infuse values-based, person-centered philosophies into our community building efforts. We will have a chance to learn from leaders in the field and from each other.

The benefits of community building and person-centered planning make our towns greater by creating stronger neighborhoods and more active and involved populations of people with disabilities. These relationships empower and create opportunities for members of our communities who are often marginalized and forgotten. The 2016 Georgia Winter Institute strives to build more inclusive communities through better transition opportunities throughout the lifespan, community building, futures planning, and roving listening.

Registration
\$235
The Columbus Marriott
\$99/night
